Detroit, MI 48265-1000

Mr. Wagoner,

My name is Keith Hallock and I have a company and website called YBUY4N that I started in 1992.

I was given your e-mail address from Dan Roseland, 707-996-2141 owner of Sonoma Chevrolet in Sonoma CA. I showed him my website and told him about my plans to promote American made products/production. He suggested I contact you.

The intent of my contact with Mr. Roseland was that I am going to take an American made HYBRID to the Obama inauguration. It will launch the YBUY4N.COM website and promote the ideals on the website. I know this is the time to take this concept on the road and I think we can come to a mutually beneficial arrangement.

Please look at my site and you will see the Tahoe Hybrid with some sample graphics. I will fill every available inch of it with advertising and want you to be the first to join the change that is coming to America. As you can tell from the slogans on the t-shirts, they reflect the mood of the country. There is no better way to promote this change than with a 'Made in America' Hybrid vehicle.

This can be an advertising coup for you and your company. You would be the *first* in a long line of ALL American companies to get behind Main Street and show them you want to save our economy. The features of the vehicle combined with the gas mileage will demonstrate your commitment to bring energy efficient and affordable vehicles to this country.

I am asking you to provide YBUY4N with a 2008 Chevy Tahoe Hybrid in exchange for an invaluable amount of good will advertising. This will let Main Street America know that you are willing and serious to promote a new CHANGE in America. You and the Tahoe Hybrid can be the leading example for Main Street America. You can have a film crew at Sonoma Chevrolet to film the turnover of the Malibu and the Tahoe Hybrid. They can then film the trip of the Tahoe to the inauguration.

Thank you for your time and I would appreciate hearing from you at your earliest convenience.

Keith Hallock
